

BIOMEDICAL MAINTENANCE WORKSTATION

The **TEKLAB Biomedical instrument maintenance workstation** is designed to enable testing and maintenance of biomedical devices in hospital workshops. It provides a professional working

environment for electro-mechanical maintenance and testing of various medical instruments.

Highlights

TowerLine workstation with great ergonomics

An integrated and ergonomic workstation improves working efficiency.

Insulation level monitoring

Quick testing of the insulation level of medical instruments

Safety

Electrical supply unit with protection systems improves safety.

Well-equipped for electrical maintenance

Quality devices and tools for electric, electronics and mechanical maintenance

Safety testing

Mandatory tests per IEC/EN 62353 and DIN VDE 0701-0702 using a single tester

PROFESSIONAL WORKSTATION

Often hospitals are equipped with biomedical maintenance workshops to enable quick response time for the service. Typically, the workshops are designed for electrical and mechanical maintenance and for testing biomedical instruments.

The measurements and documentation must be done in accordance with binding international standards for medical devices.

The **TEKLAB Biomedical maintenance workstation** offers a professional environment for the following tasks:

- Electrical safety testing
- Insulation level monitoring of devices
- Electrical and mechanical maintenance

Electric maintenance workstation

Benefits

IMPROVED WORKING EFFICIENCY

The **TEKLAB Biomedical maintenance workstation** offers professional instruments and great ergonomics enabling fluent maintenance and testing.

RELIABLE CALIBRATION SERVICE

Regular calibration service is available for all instruments to ensure their accuracy.

LOW LIFETIME COSTS

Robust workstation construction and instrument integration enable extremely long lifetime for the workstation. This results in low lifetime costs.

QUALITY AND EXPERIENCE

TEKLAB solutions are in use in demanding industrial applications in more than 120 countries worldwide. This experience shows in the high quality of the **TEKLAB** solutions.

All **TEKLAB** solutions are manufactured in Finland.
