

CONCEPT WORKSTATION, HIGH

An easy way to adapt one workstation for several users is to have it equipped with manual and electrical height adjustment. At the same time, electrical height

adjustment enables the workstation to be suitable for standing work – ergonomics at its best.

Highlights

Instrument panel

Instrument panel is located above the table top releasing plenty of space

Height adjustment

Electrically / manually adjustable height: 700 – 1100 mm

LED lighting

Energy saving LED lighting integrated at the bottom of the panel

Table tops

More working space with 900 mm table top

ESD protection

Full ESD protection for workbench and user limits the problems caused by electrostatic discharges

DEVICE PANEL

- Panel for integrated electrical equipment
- Panel equipped with modular device system: Devices can be easily added and removed
- Integrated modules are covered with polyester film to ensure long lifetime for the markings in the front pane
- Panel top can be opened
- Height from the table top can be chosen between 370, 425 or 480 mm

ELECTRICALLY / MANUALLY ADJUSTABLE WORKSTATION

Modular workstations can be equipped with instruments and accessories based on customer needs.

Benefits

IMPROVED WORKING EFFICIENCY

The **TEKLAB Concept high workstation** offers professional instruments and great ergonomics enabling fluent maintenance and testing.

LOW LIFETIME COSTS

Robust workstation construction and instrument integration enable extremely long lifetime for the workstation. This results in low lifetime costs.

IMPROVED ELECTRICAL SAFETY

High level electrical protection systems provide better safety for both users and devices under test.

QUALITY AND EXPERIENCE

TEKLAB solutions are in use in demanding industrial applications in more than 120 countries worldwide. This experience shows in the high quality of the **TEKLAB** solutions.

All **TEKLAB** solutions are manufactured in Finland.
